Medistri Announces its Sixth Sterilization Line

Medistri, a leading provider of contract sterilization & laboratory services for healthcare companies, is excited to announce the expansion of its sterilization capacity by adding a sixth chamber that will arrive Mid-November.

The new chamber will be used primarily for the sterilization of pharmaceutical & medical devices coming from multiple countries. It will be fully operational for the first quarter of 2024.

Founded in 2006, Medistri has been focused on building infrastructure for the healthcare industry. Companies of every size, from startups & university projects to Fortune 500 companies use our services to save time, scale and focus on what they do best. Medistri reduces the barriers to healthcare product development & scalability. We provide infrastructure for new ventures when they get started and for existing companies to grow globally.

“With this new chamber, we will be able to meet the increasing demand for our services.” said Medistri Deputy Manager Yacine Gérard. “This is a great achievement for our company and a testament to our commitment to innovation and excellence.”

Medistri has been providing sterilization & laboratory services for over 15 years and has since established itself as a trusted partner for companies in the pharmaceutical, medical device, aerospace and biotechnology industries.

Medistri is committed to work closely with our clients and partners needs and following strict sterilization guidelines to ensure the highest level of safety and effectiveness.
