Contract Sterilization Services

Routine Lead Times

At Medistri, we understand the importance of time management in sterilization services. Our structured routine lead times are designed to optimize the flow and processing of medical devices and pharmaceutical products, ensuring they meet the required safety standards without unnecessary delay. Our lead time options apply uniformly across both our locations in Domdidier, Switzerland, and Szekesfehervar, Hungary. Each site is equipped with advanced sterilization technology and operates under the same stringent quality controls and operational protocols, ensuring consistent service delivery regardless of location.
